GHENT TELEPHONE COMPANY

Ghent, Ky.

Paul A. Hockett, Owner

HOW TO USE THE TELEPHONE FOR MAKING CALLS

Obtain The Correct Telephone Number—Before making a call always obtain the telephone number by referring to the latest issue of the directory. If the person or firm you wish to call has a telephone, but if not listed in the directory, ask your operator for the number.

When Through Talking—Subscribers should hang up the receiver as soon as they finish talking, and if the telephone you are using is equipped with a hand ringer, should signal the operator to take down the connection.

Answer Your Telephone Promptly—Answer your incoming calls promptly, if you do not wish to lose them. The operator can not trace the call after the calling party has hung up. In answering a call, identify yourself by giving your name or telephone number. This method of answering saves time and should be used at both business and residence telephones.

Party-Line Subscribers Should Co-Operate—To make party-line service efficient and to prevent annoyance to subscribers on the same line, the following courtesies should be observed by all party-line subscribers: Answer only your own ringing code. If there is any confusion about the rings, report the fact promptly to the operator. When you wish to make a call, remove your receiver and listen. If the line is in use, restore the receiver to the hook and wait for those using the line to finish. Endeavor to limit your calls to five minutes duration.

Subscribers are cautioned against allowing the receiver to remain off the hook while the telephone is not in use. This practice impairs the efficiency of the service, and if continually persisted in will justify the removal of the telephone.

The Telephone Company's obligation to furnish telephone service is dependent upon its ability to secure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

The subscriber shall pay monthly or on demand all charges for exchange service and equipment and for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

In the event of abandonment of the station, the non-payment of any sum due, the use of foul or profane language, the impersonation of any other person with fraudulent intent, listening in on party line conversations, or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers, the Telephone Company may without notice, (a) suspend service until all violations have ceased, or (b) terminate the subscriber's service without suspension, or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises.

Should service be suspended for non-payment of charges, restoration of service shall be made only as prescribed under "Restoration of Service."
